U.S. Department of State Indexes of Living Costs Abroad,

Quarters Allowances, and Hardship Differentials

Many private firms use these quarterly statistics to adjust the pay of their American employees abroad. The indexes are based on the difference between living costs in Washington, D.C. and each of more than 160 foreign cities. The publications also list U.S. State Department housing (quarters) allowances for about half of the cities and hardship differentials for all important posts.
